

Join The Lunch Makers program

and reduce food waste in your school or preschool

Food Waste Facts:

Based on recent studies, we estimate that every school student wastes more than 3kg of food each year. In Western Australia alone each year, students throw away:

- 3.5 million uneaten sandwiches
- 3 million pieces of whole fruit
- 1.3 million items of packaged foods

The Lunch Makers program will empower kids to be involved in preparing and making their own lunch aiming to reduce food waste in your school or preschool!

Students' new skills will be celebrated with a 'Pack Your Own Lunch Day' during the Term.

Why join the Lunch Makers Program?

Lead the way by implementing an innovative sustainability action program

Help families save thousands of dollars every year and make the most of the food they buy

Educate and engage students, staff and your community to have a positive impact on the environment

Reduce your waste by cutting the amount of food that ends up in your school or preschool bins

What's involved:

- You'll receive a Lunch Makers Resource Pack with everything you need

 program content for school/preschool newsletters, emails and apps,
 social media tiles and posts
- 2. Complete a short, sharp food waste photo audit with your students
- **3.** Run the Lunch Makers program during the Term using the resource pack for communicating weekly with your parent community and in class/ preschool learning resources
- 4. Hold a kids 'Make your Own Lunch' Day during the Term
- **5.** Option to host a fun FREE composting workshop at your school/preschool (for one class or staff group) with FREE composting equipment!
- For more information contact Wendy Grant 0422 151 402 | projects@midwaste.org.au
